Compd accts 4/6/1863

Translation of order No. 282/259 dated 22nd February 1866 from the Dy: Superintendent Kolar to the Amildar of Bethamangala as per extract.

Copied from the Register of the Taluk.

With reference to your arge No. 492 and the list submitted therewith in the matter of an application of one Alpaka Raghavachar and others proposing to repair the delapidated tank of Kakkamadagikere in the Kamasandra village on the condition of the lands under the tank being given to them on assessment for cultivation and intimating that the Darkhastadars, ryots & Shanbogue have been directed to report themselves personally it is observed that ~~this boards that~~ it is 12 years since the Kodagi Tank constructed by one Thimmagowda of Kamasandra has been under disrepair. The Kodagidar being unable to repair the tank

tank within the time allowed him in the notice, resigned it to Government and the Government has not repaired it. One Obala Reddi obtained a portion of the land for cultivation with the help of a well. The bed of the tank has been given out on dry assessment of Rs 14/- and odd. The atchakat of wet land excluding Perampoke and Inam land under the tank & including Kodagi land is A. Ko. 13-4-, An estimate for Rs 1900 for repairing the tank was already submitted and it is remarked that it is not yet Sanctioned.

Of the ryots who presented themselves, the ryot who has been cultivating the bed of the tank states that he would undertake the repairs of the tank if the land under it be given to him, and the Kodagidar said that the tank was constructed at a heavy cost and that he was unable to repair it for want of funds and that he

he along with the Darkhastadar owned now repair the tank and requested that the land under the tank may be given to them. Calculating at 5 annas per Kolaga the assessment on the land fit for cultivation will amount to Rs 82/-. The expense to be incurred in repairing the tank could not be recouped within 10 years. If 1/4th Chowtaya of the assessment is remitted under the Commissioners notification, the rate will be more or less 4 annas per Kolaga. The land is therefore given for cultivation to the Kodagidar Thimmagowda and to the Darkhastadar alpaka Raghavachar at the rate of 4 annas per Kolaga. As the tank is to be repaired at a heavy cost 2 years time is allowed for its repair and assessment should be levied on all the cultivable land below the tank

at

at 4 annas a kolaga with effect from the year Vibhava. During the period the tank is under repair, if any portion is cultivated, assessment should be charged only on that portion at the above rate.

When the repairs of the tank is completed and the dry lands in the bed is submerged by water the assessment thereon will be remitted

The usual Muchalika with Surety should be obtained binding them to complete the repair of the Tank within the time allowed and to pay Kandayams on the selected area year by year without failure. A list showing the Nos. of each block so selected should be submitted at the time of Jamabandy:

Dated. 22-2-1866.

Translation of Hukkum from the acting Superintendent Kolar Dt., to the Amildar, Bethamangala Taluk. No. 70/404 dated 13th August 1866:

With reference to the list submitted with your Arji No. 190 on the subject of a proposal by one Venkatarayya to undertake the repair of the delapidated tank of Govinda Gowdanakere of the Chemiakanahalli village on the condition of his being granted wet lands under it for cultivation on assessment, it is observed that the Atchakat below this tank is about K. Ks-P. 3-0-0 and the cost of repairing the tank would amount to Rs 300/-. there does not seem to be any wet land near this village and the land below the tank itself is unfit for cultivation owing to the ditches, cuttings &c in the same

Taking

Taking the rate at 6 annas per Kolaga on cultivable land, the assessment on this land will amount to Rs 22-8-0 and the expense incurred in repairing the tank cannot be recouped with the aggregate income of 10 years derived from the land. The land is therefore granted to the applicant Venkatayya for cultivation at 4 annas per Kolaga with effect from the year Prabhava; after deducting Chowtaya with effect from the year Kalayuta.

deduction Chauth from the of 6 ar

The lands should be correctly measured and made over to the applicant the usual muchalika with surety should be duly obtained from him. and the assessment should be recovered in usual Kistabandies. A period of 6 months is allowed to complete the repairs of the tank.

and you are requested to submit a report when that is done.

Dated. 13th August 1866.

(Signed) Krishna Iyengar.
Acting Dy: Superintendent.

Translation of Hukkum from Krishna-
Iyengar Esq^r acting Dy: Sup^d Kolar Dt to the
Amildar, Bethamangala Taluk. No 419
dated 25th December 1866.

With reference to the detailed list sub-
mitted by you in the matter of the pro-
posal of one Budikote Jayammiyappa
to undertake the repairs of the Kunte of
the Dimakonnur Village in your Taluk
on the condition that the wet land under
it is assessed and given to him for
cultivation, and reporting that Dar-
khastadar, myota, and Shanbagne
of the village have been directed to
present themselves personally, it is
observed that the Kunte has been out
of order for the past 60 years; it would
cost 300 rupees to repair the Kunte.
The

The lands below ~~the tank~~ and in the bed of the tank yield a revenue of ~~Rs~~ 10-9-3. annually. (Bid:- 3-9-11 + Adchakat ~~Rs~~: 6-15-4 = 10-9-3). After the tank is repaired, an adchakat of ~~K~~ 3- ~~Ko~~ 10- ~~P~~ 0 of lands can be formed below the tank; it is further noted from the list that there is no other wet lands in the village

At the enquiry held in person one Meenamma who is a Kandayadar in the bed of the tank was not present. Gidarradi and other ryots who have occupied lands below the tanks on dry assessment stated that they are unable to repair the tank at their expense, and that they would relinquish their holdings after the tank is repaired and that they have no objection to the lands being given to the Darkhastadar on Kandayam.

At the rate of 6 annas per Kolaga, the assessment on land fit for cultivation will amount to Rs 26-4-0. The expense to be incurred in repairing the tank could not thus be recovered within 10 years. The land under the tank is therefore given to the Darkhastadar Jayamiyappa from the year Pabhava at the rate of 5 annas per Kolaga after deducting the usual Chowtayi under the Commissioner's Istihar.

After the tank is repaired a Muchalika with Sureties should be obtained from him to the effect that he would annually pay assessment on the land, and the land should be made over to him, after due measurement &c. A list should be prepared and submitted at the Jamabandy time.

When

When land below the tank becomes fit for cultivation after the tank is restored to order the ~~claims of the~~ assessment ~~proceed levied~~ of the lands below and in the bed of the Kunta should be ~~relinquished~~ remitted

(Signed). Krishna Iyengar
Acting Dy: Superintendent.

Translation of Hukkum from Krishnaswamy Ayyah acting Dy: Supdt. Kolar Dt. to the Amildar, Bethamangula Taluk. No. 19 dated 1st March 1864.

With reference to the detailed list submitted by you in the matter of a Darkhast by Ganga Reddi and Soobba Rao who have applied for the land below the delapidated tank of Gajagu Grama, and reporting that the Darkhastadars, ~~that~~ have been directed to present ~~myself~~ themselves in person, it is observed ~~that~~ the tank is in disrepair for the past 100 years, that it would require 320 ~~Rs~~ to repair it, that an alienation of 5 Kandikas of land may be formed below the tank; ~~and~~

the tank bed is not assessed &
~~is charged on lands in the bed of the tank,~~

the land below the tank is in the pos-
session of Nagaraddi, Paparadi and
Sonar Soobba who pay a dry and
garden assessment of 7, 8, & 7 Inpees
respectively, and the rate of wet ass-
-essment in this village is ~~Rs~~ 0-10-6
per Kolaya

Of the persons owning land below
the tank, Sonar Soobba is not present.
Nagaraddi says that he is unable
to undertake the repair of the tank
and has deposed to the effect that
he would resign the land in his
possession. Three persons, namely,
Paparadi, Darkhastadar Gangaradi
and Soobba Ron have deposed to
the effect that they would undertake

the repair of the tank.

Calculating the assessment on land fit for cultivation at 5 annas per Kolaga, the expense to be incurred in repairing the tank could not be recovered from the produce of land for 10 years. For this foregoing considerations and in accordance with Leonnis Istihar, one portion of the land is granted to Paparadi who is in occupation of the same on dry assessment another portion to the Darkhastdar Gangaradi, and the third to Lobba Ron from the year Bahbava at the rate of 4 annas per Kolaga after deducting the usual Chowtaya.

A Muchalika with Securities should accordingly be obtained from

from them binding them to pay Kandayam annually at the above rate after the completion of the repair of the tank and submitted along with a list showing the correct beeravari, the Rs. due of the land at the jamabandy time

(signed) Krishna Iyengar.
Acting Dy. Superintendent

Received

Translation of the
Vernacular papers
received with Despatch
Secret Letter dated 8th April
No 1029-

Memo.

Letter No. 1029 dated 1st April 1893 from the Superintendent Revenue Survey in Mysore.

With his No. 911 dated 21st February 1893, the Supdt. Revenue Survey submitted for sanction, a statement of lands under Private tanks in the Bowringpet Taluk for which remission of 1/4th wet assessment was claimed and recommended.

2. In this office No. 15893 R.Z. 93-92 of the 23rd March 1893, an enquiry was made as to whether it was to be understood by the remarks made in several cases to the effect

"Isbister quoted. 1/4th remission of wet assessment allowed", that 1/4th of wet assessment used to be remitted before Survey Settlement. In calling for a report as to whether such a remission was granted in cases Nos 10, 12, 13 & 14 before the Survey Settlement was introduced, the Superintendent was requested to submit the records in these cases and in case No 12 for ascertaining what the rate of wet assessment was which was fixed when the lands became irrigable by the construction of the private tank in question.

3. The Superintendent now submits an extract from the diary in case No 10 and also the original orders of the Deputy Commissioner in the other cases, from which

it would appear that ~~a portion of the wet assessment~~ × reduced rates of assessment used to be collected in these cases prior to the introduction of the Survey Settlement. The Superintendent submits that the exactly 1/4th remission of wet assessment was not granted before the Survey Settlement in cases where the Istimrar regulated the grant of tanks for repair, still some remission of the wet assessment was always allowed. and that this practice be found to be universal and considered the grant of the tank and lands under the Istimrar as synonymous with some remission of the wet assessment.

4. It would appear from the Deputy Commrs

No	Proper Asst:	Asst: fixed
× 10.	5 as: per Kuroo -	4 as: per Kuroo.
12.	6 as: 5° -	4 as 5°.
13.	6 as: 5° -	5 as: 5°:
* 14	5 as 5° -	4 as: 5°;

"Chauthayi" is stated to have been allowed in fixing the reduced rates of assessment

Because the Dr. outlay on the Tank is more than 10 times the assessment levied on the lands which may be irrigated by it

*

Read: Correspondence ending with Letter No. 1029 dated 1st April 1893 from the Superintendent of Revenue Survey in Mysore.

No. 5045 R. 193-92 2/7-7-93 Order thereon.—

With his letter No. 911 dated 21st February 1893, the Supt of Revenue Survey submitted for Sanction a Statement of lands under Private tanks in the Bowringpett Taluk for which remission of 1/4th wet assessment was claimed and recommended.

2. In this Office No. 1589 3 / R. 7.93-92 of the 23d March 1893, an enquiry was made as to whether it was to be understood by the remarks made

made in several cases to
the effect "Istliar granted,
1/4th remission of wet assess-
-ment allowed", that 1/4th
of wet assessment used to
be remitted before Survey
Settlement, and a report
was called for as to whether
such a remission was granted
in Cases Nos. 10, 12, 13, & 14
before the Survey Settlement
was introduced. The Supdt
was also requested to Sub-
-mit the records in these
cases and in Case no. 12
for ascertaining what the
rate of wet assessment
was, which was fixed when
the lands became irrigable
by the Construction of the
Private tank in each case-

3. The Supdt now Submits
an extract from the diary
in case no. 10 and also the

original orders of the Deputy

Commissioner in the other cases. A

The [illegible] from shew takers [illegible] ed rates of assess-
-ment used to be collected
in these cases prior to the
introduction of the Survey
Settlement & The Supt
avers that he [illegible] ally
also submits that though
exactly 1/4th the emission of wet
assessment was not granted
before the Survey Settlement
in cases where the Isthiar
regulated the grant of tanks
for repair, Still Some re-
-mission of the wet assess-
-ment was always allowed
and that this practice be
found to be universal and
considered the grant of the
tank and lands under the
Isthiar as synonymous

14. The Survey Supt's letter does not furnish an answer to the first enquiry - but an affirmative answer is presumed and Sanction is accorded to the Survey Supt's proposals as it appears from the Concession granted amounting practically

to under the 10th year promising the concession for Private Outlay =

A statement shewing the names of the Tanks repaired & the areas of the lands now in occupation under each tank attended - The statement should be amended to shew in the statement

The papers submitted
show that though exactly
1/4 asst was not received,
reduced rates of asst
involving a remission of
nearly 1/4 asst were
charged on the land by
reason of the introduction
of the survey & settlt —

Under these circumstances
His Govt are pleased to sanction
the remission
proposed. —

with Some remission of
the wet assessment.
4. Under these circum-
-stances, the remission of
1/4th assessment recommend-
-ed by the Supdt of Revn.
Survey is Sanctioned.
5. It must be clearly
understood and explained
to the owners of the tanks
that if they fail to keep
the tanks in good order, &
any of the lands under them,
now under occupation,
are relinquished in con-
-sequence thereof or so
abandoned as to necessi-
-tate their being sold for
arrears of revenue and
bought in by Govern-
-ment, the remission
now Sanctioned will
be withdrawn and the

GOVERNMENT OF MYSORE

Tanks taken under the management of Government.

27/6/93

Please get the vernacular letter sent with H. Dn Surveyor Supdt's letter dy 1st Apl 93 No 1029. Translated into English & send it back. How can we sanction the recommendation unless we are sure that ¼ remission was granted before. H. Supdt says, that some remission was granted and ¼ [illegible]

Docket No: 576 of the 8th December 1891, from the Superintendent Revenue Survey in Mysore.

Order thereon.

No 13332-3 D/19-2-92

With the above docket, the Superintendent Revenue Survey, submits a statement of lands under private tanks in the Mulbagal Taluk for which remission

assessment is claimed and recommended.

2. In some of the cases, the original orders sanctioning the construction or restoration of the banks have not been produced, but the Survey Superintendent has satisfied himself on this point by reference to copies or entries in the outward register. All these cases are cases in which sanction was accorded before 1871. In cases Nos.

intendent has made no remarks, but it is presumed that he has passed them as entitled to 1/4th remission as like the rest.

3. The names of the several tanks referred to, and the assessment of the lands now in occupation under each are shewn ~~embodied~~ in the accompanying abstract statement prepared in this office, and sanction is hereby accorded to the remission recommended being 1/4th

ment amounting to Rs. 465-10-0. ~~The same is hereby sanctioned~~

4. The remission granted will be subject to the condition that the tanks are maintained in a condition of due repair

MM 19/2
for Chief Secretary

To The Supdt of Rev Survey Mysore

~~Dated~~ Ref No 911 of 21st ultimo Supdg for sanction a State Plands under private lands in the Bowringpete Taluk for which rent of 4 ts per acre is claimed & recommended

The Survey Supdt is requested to be good enough to furnish Govt with further information on the following points -

(1) In general cases the remark is "Assessment fixed - 4 rupees of per acre allowed." Is it to be understood by this that 4 ts per acre is used to be remitted before survey settlement?

(2) In cases Nos 10, 12, 13, & 14 was such a remission granted before the survey settlement was introduced? The records in these cases may be forwarded in copy & particularly in case No 12 for ascertaining what the rate per acre was which was fixed when the lands became injable by the construction of the Private Tank in question Bangalore Dated 28/3/93

Survey superintendent's office

Bangalore 1st April 1893

To The Chief Secretary to the

Dewan of Mysore.

Sir,

In reply to your Docket No. 1589.3 dated R.F 93-92 23rd March 1893 I have the honor to forward the records (to be kindly returned) relating to cases Nos. 10, 12, 13 and 14 from which it will be apparent — that although exactly 1/4 remission of wet assessment used not to be granted before survey settlement in cases where the Istihar regulated the grant of tanks for repair, still some remission of the wet assessment was always allowed. This prac- - tice I have found to be universal and —— have therefore considered the fact of the tank and lands being granted under the Istihar as synonymous with some remission of the wet assessment.

I have the honor to be

Sir,

your most obedient servant

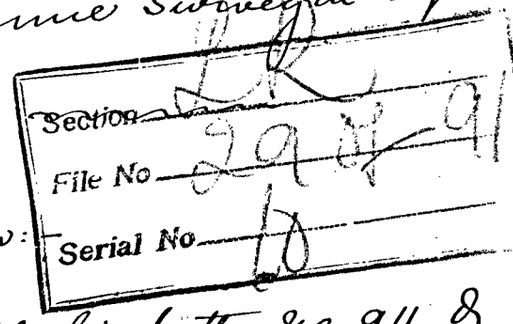
Read:-

Correspondence ending with letter No. 1029 dated 1st April 1893 from the Supt of Revenue Survey in Mysore.



Received draft-Subject for Chief Secy's signature Mysore 3/7/93

Order thereon:-

No 504-5 R.793-92 dt 8-7-93 13.

With his letter No. 911 of 21st February 1893, the Supt of Revenue Survey submitted for Sanction a Statement of lands under private tanks in the Bowringpett Taluk, for which remission of 1/4th wet assessment was claimed and recommended.

2. In this office No 1589 R.7.93-92 of the 23d March 1893, an enquiry was made as to whether it was to be understood by the remarks made in Several cases to

1/4th remission of wet assess-
ment allowed", that 1/4th of
wet assessment used to be
remitted before Survey
Settlement, and a report
was called for as to whether
such a remission was
granted in Cases Nos 10, 12,
13 and 14 before the Survey
settlement was introduced.
The Supot was also requested
to submit the records in these
cases and in case No. 12 for
ascertaining what the
rate of wet assessment was,
which was fixed when the
lands became irrigable by
the construction of the
Private Tank in each case.
3. The Supot now submits
an extract from the diary
in Case No. 10 and also

The

the original orders of the Deputy Commr in the other cases. The papers submitted show that though exactly 1/4th assessment was not remitted, reduced rates of assessment involving a remission of nearly 1/4th assessment were charged on the lands prior to the introduction of the Survey Settlement.

4. Under these circumstances, the Government are pleased to sanction the remissions proposed. A Statement showing the names of the Tanks referred to and the assessment of the lands now in occupation under each is hereto appended.

5. It must be clearly understood and explained to the owners of the tank

that if they fail to keep the tanks in good order, and any of the lands under them, now under occupation, are relinquished in consequence thereof or so abandoned as to necessitate their being sold for arrears of revenue and bought in by Government, the remission now sanctioned will be withdrawn and the tanks taken under the management of Government.

Chief Secretary.

Sanctioning the remission of $\frac{1}{4}$th wet assessment on lands under private tanks in the Bowringpet Taluk, as recommended by the Superintendent of Revenue Survey in Mysore.

Mysore Govt. C. Press, Bangalore.—17-7-93.—120.

(10)

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 8th July 1893.

READ :—

Correspondence ending with letter No. 1029, dated 1st April 1893, from the Superintendent of Revenue Survey in Mysore.

No. 504-5—R. F. 93-92, DATED, BANGALORE, 8TH JULY 1893.

ORDER THEREON.—With his letter No. 911, dated 21st February 1893, the Superintendent of Revenue Survey submitted for sanction, a statement of lands under private tanks in the Bowringpet Taluk, for which remission of $\frac{1}{4}$th wet assessment was claimed and recommended.

2. In this office No. 15893—R. F. 93-92 of the 23rd March 1893 an enquiry was made as to whether it was to be understood by the remarks made in several cases to the effect "Isthiar quoted, $\frac{1}{4}$th remission of wet assessment allowed," that $\frac{1}{4}$th of wet assessment used to be remitted before Survey Settlement, and a report was called for as to whether such a remission was granted in cases Nos. 10, 12, 13 and 14 before the Survey Settlement was introduced. The Superintendent was also requested to submit the records in these cases and in case No. 12 for ascertaining what the rate of wet assessment was, which was fixed when the lands became irrigable by the construction of the private tank in each case.

3. The Superintendent now submits an extract from the diary in case No. 10 and also the original orders of the Deputy Commissioner in the other cases. The papers submitted show that though exactly $\frac{1}{4}$th assessment was not remitted, reduced rates of assessment involving a remission of nearly $\frac{1}{4}$th assessment were charged on the lands prior to the introduction of the Survey Settlement.

4. Under these circumstances, the Government are pleased to sanction the remissions proposed. A statement showing the names of the tanks referred to and the assessment of the lands now in occupation under each is hereto appended.

5. It must be clearly understood and explained to the owners of the tanks that if they fail to keep the tanks in good order, and any of the lands under them, now under occupation, are relinquished in consequence thereof or so abandoned as to necessitate their being sold for arrears of revenue and bought in by Government, the remission now sanctioned will be withdrawn and the tanks taken under the management of Government.
